

Cold Chisel to Roll Out the Biggest Archival Release in Australian Music History!

56 New and Rare Recordings and 3 Hours of Previously Unreleased Live Video Footage to be Unveiled!

Sydney, Australia - Under total media embargo until 4.00pm EST, Monday, 27 June, 2011

22 July, 2011 will be a memorable day for **Cold Chisel** fans.

After two years of exhaustively excavating the band's archives, 22 July will see both the first-ever digital release of **Cold Chisel**'s classic catalogue as well as brand new deluxe reissues of all of their CDs.

All of the band's music has been remastered so the sound quality is better than ever and state of the art CD packaging has restored the original LP visuals. In addition, the releases will also include previously unseen photos and liner notes.

Most importantly, these releases will unleash a motherlode of previously unreleased sound and vision by this classic Australian band.

Cold Chisel is without peer in the history of Australian music. It's therefore only fitting that this reissue program is equally peerless.

While many major international artists have revamped their classic works for the 21st century, no Australian artist has ever prepared such a significant roll out of their catalogue as this, with its specialised focus on the digital platform and the traditional CD platform.

The digital release includes 56 **Cold Chisel** recordings that have either never been released or have not been available for more than 15 years.

These include:

- A “Live At The Wireless” studio session recorded in early 1977 at the 2JJ studio (featuring 2 never-before-released songs)
- A full, previously-unheard concert from St Leonards Park in 1978
- Extra songs from their legendary *Last Stand* concerts
- Dozens of songs that come from B-sides and rare recordings, out-takes from the recording sessions, original demos of songs, recordings of live shows and even fan-recorded bootlegs!

While the digital release will offer a truckload of additional audio material, each of the band’s six studio albums will contain a different bonus “Video Bootleg” DVD. Each of those discs will contain unreleased vision from the era of each album.

In total, the six “Video Bootleg” DVDs that accompany these new CD reissues will include more than 40 performances that cannot be found anywhere else.

These include:

- Accompanying the band's classic breakthrough album, *East*, are 9 songs filmed at the Manly Vale Hotel the week the album was released which capture the band in fierce, brilliant form. In addition, this DVD features **Cold Chisel**’s infamous appearance at the 1980 “Countdown” Music Awards.
- Accompanying the band's self-titled debut is a 3 song performance, recently unearthed from the ABC's archive, from a long-defunct program called “Rocturnal” and an extremely rare video of the classic, *One Long Day*.
- Accompanying the 1978 album, *Breakfast at Sweethearts*, is a full 11 song concert recorded at the ABC's Studio 221.
- The band's 1998 album, *The Last Wave of Summer*, features 4 live and raw videos of songs from the tour of the same name which have been edited especially for this release.

On top of all this, the group’s landmark live album *Swingshift* has been remastered for the first time and now includes four additional songs from the two shows (at Sydney's Capitol Theatre and Melbourne's Palais Theatre) that produced this album. The album is repackaged in a special expanded double digipack, accompanied by previously unseen photos and notes.

“Listening to all of this music and watching all of this footage from the past has been amazing” said Jimmy Barnes. *“There are songs and performances we'd completely forgotten about; there were times we said, 'did we really play that'? Some tracks here we only ever played once or twice and there are demos of songs that turned into something else. It's been a real trip through our past and reminded us that we were OK for a rock and roll band.”*

Cold Chisel's catalogue has sold more than 3 million copies since they broke-up in 1983 and songs like *Khe Sanh*, *Cheap Wine*, *You Got Nothing I Want*, *Bow River*, *Flame Trees*, *Choir Girl*, *Forever Now* and *When The War Is Over* have become anthems for generations of Australians.

The band is currently working on new music and some of that will hopefully see the light of day later this year. However, for the time being all focus is on making the group's existing releases available digitally for the first time ever and making their CDs available in the best versions ever. And all of that happens on 22 July.

All of these releases are ready for pre-order online now.

Expanded release details are attached.
